

# Criminal IP Credit Explanation

The data retrieval and feature usage permissions for both Criminal IP search and API functions vary depending on the subscription plan of the account being used and the number of credits allocated.

## Credit Renewal Period

All credits are subject to different renewal periods depending on the subscription plan.

- **Free Membership: Renewed on the 1<sup>st</sup> of every month**
- **Lite, Medium, Pro: Renewed on the monthly billing date**
- **Enterprise: Renewed on the 1<sup>st</sup> of every month within the contracted period**

## Credit Types

The credits available for use in paid and free plans are divided into two types: Asset Search credits and Domain Search credits. These are further categorized based on the data retrieval items.

- **Asset Search** Credit: Credits used for data retrieval in Asset Search, Image Search, and Exploit Search
- **Domain Search** Credit: Credits used for data retrieval in Domain Search

## Asset Search Credit

Asset Search credits include Search Query Results credits and IP Lookup credits, depending on the data items or methods being retrieved.
